The inquiry was repeated, but still without elicting a response.

Van Wyck said that while the Sena-

George's amendment was agreed to, as modifying the Slater amendment, the latter however, not being part of the bill, but still under debate.

Brown, of Georgia, said that consolidation, not competition, was the solution of the railway question. The begin-lation proposed would greatly discourage the boilding of railroads. There may be enough of them in the north and west. Those sections may have enough game in their trap to be able to allord to pull the trigger. It was not so with the south, which yet needed/railroads. If the present bill passed, the people who were now chamoring for its passage would then be found clamoring for its repeal. It would either drive the railways into landrustever else it would prohibit all interchange of commodities at a greater distance than 500 or 600 miles, as statistics quoted by Brown showed that freight could not possibly bear the same proportionate rate for 1,000 miles. It would not only destroy inter State commerce, but, by making long-distance traights from the west to the Ailantic coust so expensive as to probabilit shipment, it would also destroy our foreign cemmerce.

Adjourned until to-morrow.

Delayed Trains.

the trains to-night range from one to mine nours behind time. The eastern mails are generally two or three hours late. The situation is the worst in the south east and east. A passenger train coming this way on the Chicago, Lafayette & Cincinnati road was, when last heard of, locked in drifts near St. Anne. Another passenger train on the Louisville & New Albany, due here this evening, is caught in a snow bank a few miles from this city, and the people on board will probably bivouac in the coaches all night. Shortly after midnight, the temperature, which had previously been comparatively comfortable, began a rapid descent, and is now near zero, and the snow that recommenced on Thursday might is still falling. Reports from all along the northwest and east indicate unusual snow storms.
